Indicators	Geographic Level	Primary Data Source	Data Retrieved From	Actual Indicator Name	Notes
DEMOGRAPHIC					
Total population	State (NM) (TX), County, TSA, SSA, PSA, Zip code	Esri (2016)	Esri Business Analyst Online (2016)	2016 Total Population	Forecasting change in the size and distribution of the household population begins at the county level with several sources of data. Esri begins with earlier county estimates from the US Census Bureau. Because testing has revealed improvement in accuracy by using a variety of different sources to track county population trends, Esri also employs a time series of county-to-county migration data from the Internal Revenue Service, building permits and housing starts, plus residential postal delivery counts. Finally, local data sources that tested well against Census 2010 are reviewed. The end result balances the measures of growth from a variety of data series.
Female (%)	State (NM) (TX), County, TSA, SSA, PSA, Zip code	Esri (2016)	Esri Business Analyst Online (2016)	2016 Female Population (Esri) (%)	The population by sex is projected via a cohort survival model that separately calculates the components of population change by age and sex. Applying survival rates specific to the cohort carries the 2010 population forward.
Male (%)	State (NM) (TX), County, TSA, SSA, PSA, Zip code	Esri (2016)	Esri Business Analyst Online (2016)	2016 Male Population (Esri) (%)	The population by sex is projected via a cohort survival model that separately calculates the components of population change by age and sex. Applying survival rates specific to the cohort carries the 2010 population forward.
Median age	State (NM) (TX), County, TSA, SSA, PSA, Zip code	Esri (2016)	Esri Business Analyst Online (2016)	2016 Median Age	
Age (%)	State (NM) (TX), County, TSA, SSA, PSA, Zip code	Esri (2016)	Esri Business Analyst Online (2016)	Numerator(s): Custom age variables: -2016 Both Ages less than 5 -2016 Both Ages 6 to 17 -2016 Both Ages 18 to 44 -2016 Both Ages 45 to 64 -2016 Both Ages 65 to 74 -2016 Both Ages 75+ Denominator(s): 2016 Total Population	The population by age is projected via a cohort survival model that separately calculates the components of population change by age and sex. Applying survival rates specific to the cohort carries the 2010 population forward.
Race/ethnicity (%)	State (NM) (TX), County, TSA, SSA, PSA, Zip code	Esri (2016)	Esri Business Analyst Online (2016)	Numerator(s): -2016 Hispanic Population -2016 White Non-Hispanic Population -2016 Black/African American Non-Hispanic Population -2016 Asian Non-Hispanic Population -2016 Pacific Islander Non-Hispanic Population -2016 American Indian/Alaska Native Non-Hispanic Population -2016 Other Race Non-Hispanic Population -2016 Multiple Races Non-Hispanic Population Denominator(s): 2016 Total Population	All references to "Hispanic" in indicator names were changed to "Latino". Historical trends in race and ethnicity combined with the most current data sources by race and Hispanic origin, including population estimates by county and state from the Census Bureau and survey data from the ACS, are analyzed to establish county population by race and Hispanic origin.
SOCIO-ECONOMIC					
Median household income	State (NM) (TX), County, TSA, SSA, PSA, Zip code	Esri (2016)	Esri Business Analyst Online (2016)	2016 Median Household Income	
Children (ages 0-17) living below 100% of the federal poverty level (FPL) (%)	State (NM) (TX), County, TSA, SSA, PSA, Zip code	U.S. Census Bureau American FactFinder (2010-2014 American Community Survey 5-Year Estimates) *factfinder.census.gov*	U.S. Census Bureau American FactFinder (2010-2014 American Community Survey 5-Year Estimates) *factfinder.census.gov*	Table: S1701: POVERTY STATUS IN THE PAST 12 MONTHS Numerator(s): Below poverty level; Estimate; AGE - Under 18 years Denominator(s): Total; Estimate; AGE - Under 18 years	Poverty statistics presented in ACS reports and tables adhere to the standards specified by the Office of Management and Budget in Statistical Policy Directive 14. Following the Office of Management and Budget's (OMB) Statistical Policy Directive 14, the Census Bureau uses a set of money income thresholds that vary by family size and composition to determine who is in poverty. If a family's total income is less than the family's threshold, then that family and every individual in it is considered in poverty. The official poverty thresholds do not vary geographically, but they are updated for inflation using Consumer Price Index (CPI-U). The official poverty definition uses money income before taxes and does not include capital gains or noncash benefits (such as public housing, Medicaid, and food stamps). For individuals who do not live with family members, their own income is compared with the appropriate threshold.

Indicators	Geographic Level	Primary Data Source	Data Retrieved From	Actual Indicator Name	Notes
Older adults (ages 65+) living below 100% of the FPL (%)	State (NM) (TX), County, TSA, SSA, PSA, Zip code	U.S. Census Bureau American FactFinder (2010-2014 American Community Survey 5-Year Estimates) *factfinder.census.gov*	U.S. Census Bureau American FactFinder (2010-2014 American Community Survey 5-Year Estimates) *factfinder.census.gov*	Table: S1701: POVERTY STATUS IN THE PAST 12 MONTHS Numerator(s): Below poverty level; Estimate; AGE - 65 years and over Denominator(s): Total; Estimate; AGE - 65 years and over	Poverty statistics presented in ACS reports and tables adhere to the standards specified by the Office of Management and Budget in Statistical Policy Directive 14. Following the Office of Management and Budget's (OMB) Statistical Policy Directive 14, the Census Bureau uses a set of money income thresholds that vary by family size and composition to determine who is in poverty. If a family's total income is less than the family's threshold, then that family and every individual in it is considered in poverty. The official poverty thresholds do not vary geographically, but they are updated for inflation using Consumer Price Index (CPI-U). The official poverty definition uses money income before taxes and does not include capital gains or noncash benefits (such as public housing, Medicaid, and food stamps). For individuals who do not live with family members, their own income is compared with the appropriate threshold.
Households living below 100% of the FPL (%)	State (NM) (TX), County, TSA, SSA, PSA, Zip code	U.S. Census Bureau American FactFinder (2010-2014 American Community Survey 5-Year Estimates) *factfinder.census.gov*	U.S. Census Bureau American FactFinder (2010-2014 American Community Survey 5-Year Estimates) *factfinder.census.gov*	Table: B17026: RATIO OF INCOME TO POVERTY LEVEL OF FAMILIES IN THE PAST 12 MONTHS Numerator(s) Sum of: Estimate; Total: - Under .50 Estimate; Total: - .50 to .74 Estimate; Total: - .75 to .99 Denominator(s): Estimate; Total:	- Universe = Families (A group of two or more people who reside together and who are related by birth, marriage, or adoption) - Poverty statistics presented in ACS reports and tables adhere to the standards specified by the Office of Management and Budget in Statistical Policy Directive 14. Following the Office of Management and Budget's (OMB) Statistical Policy Directive 14, the Census Bureau uses a set of money income thresholds that vary by family size and composition to determine who is in poverty. If a family's total income is less than the family's threshold, then that family and every individual in it is considered in poverty. The official poverty thresholds do not vary geographically, but they are updated for inflation using Consumer Price Index (CPI-U). The official poverty definition uses money income before taxes and does not include capital gains or noncash benefits (such as public housing, Medicaid, and food stamps). For individuals who do not live with family members, their own income is compared with the appropriate threshold. - The ratio of income to poverty is a family's or person's income divided by their poverty threshold. Income-to-poverty ratio categories represent variations of the poverty level. Frequently-used ratios include: Ratios below 1.00 (below 100 percent of poverty) are below the official poverty definition, while ratios of 1.00 or greater (100 percent of poverty or greater) indicate income above the poverty level. Ratios below 0.50 (50 percent of poverty, that is, income less than half of the poverty threshold) have sometimes been described as "severe poverty", while those with ratios at/or above 1.00 percent by less than 1.25 percent have been described as "near poverty". - A family includes a householder and one or more people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householder's family. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. Not all households contain families since a household may comprise a group of unrelated people or one person living alone.
Households living below 200% of the FPL (%)	State (NM) (TX), County, TSA, SSA, PSA, Zip code	U.S. Census Bureau American FactFinder, 2010 - 2014 (2014 ACS 5-year estimates) (factfinder.census.gov)	U.S. Census Bureau American FactFinder, 2010 - 2014 (2014 ACS 5-year estimates) (factfinder.census.gov)	Table: B17026: RATIO OF INCOME TO POVERTY LEVEL OF FAMILIES IN THE PAST 12 MONTHS Numerator(s) Sum of: - Estimate; Total: - Under .50 - Estimate; Total: - .50 to .74 - Estimate; Total: - .75 to .99 - Estimate; Total: - 1.00 to 1.24 - Estimate; Total: - 1.25 to 1.49 - Estimate; Total: - 1.50 to 1.74 - Estimate; Total: - 1.75 to 1.84 - Estimate; Total: - 1.85 to 1.99 Denominator(s): - Estimate; Total:	
Unemployment rate (%)	State (NM) (TX), County, TSA, SSA, PSA, Zip code	U.S. Census Bureau American FactFinder, 2010 - 2014 (2014 ACS 5-year estimates) (factfinder.census.gov)	U.S. Census Bureau American FactFinder (2010-2014 American Community Survey 5-Year Estimates) *factfinder.census.gov*	Table: B23025: EMPLOYMENT STATUS FOR THE POPULATION 16 YEARS AND OVER Numerator(s): Estimate; In labor force: - Civilian labor force: - Unemployed Denominator(s): Estimate; In labor force: - Civilian labor force:	- All civilians 16 years old and over are classified as unemployed if they (1) were neither "at work" nor "with a job but not at work" during the reference week, and (2) were actively looking for work during the last 4 weeks, and (3) were available to accept a job. Also included as unemployed are civilians who did not work at all during the reference week, were waiting to be called back to a job from which they had been laid off, and were available for work except for temporary illness.
