- Available on site and remotely.
- Doesn't require logging into local networks.
- Offers improved remote access.

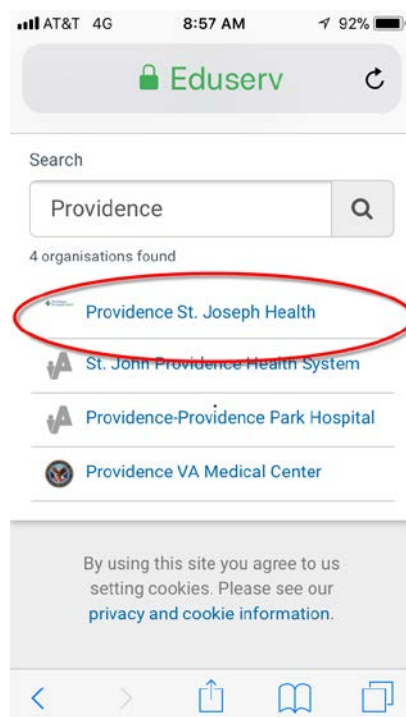

How to access the library's website remotely

Visit www.providence.org/library the login screen will only appear if you click on subscribed content.

- you may see the **Find Your Organization** screen first, follow instructions below.
- or you may only see the **Choose How to Sign in** screen, follow instructions below.

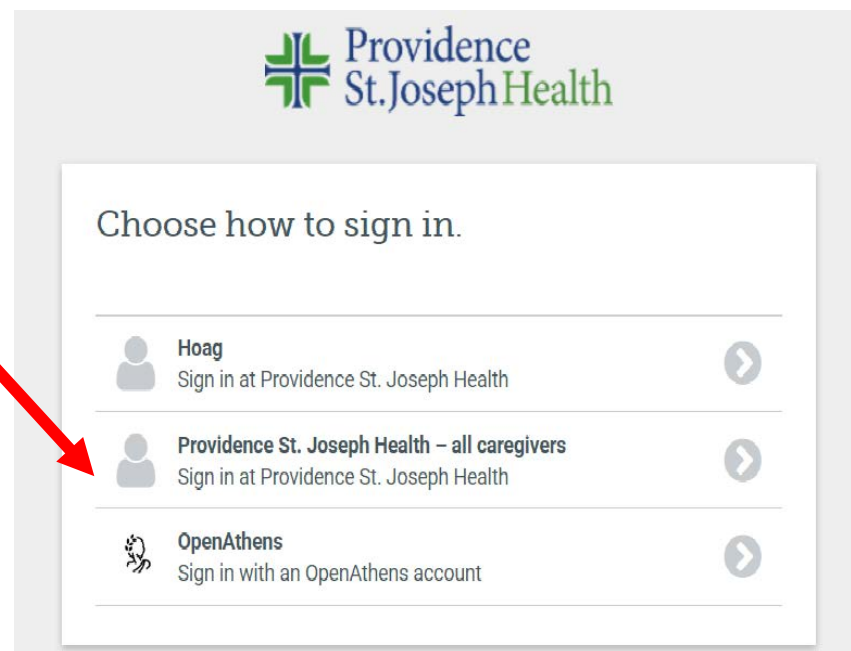

It may be easier to login to Azure myapps.microsoft.com first w/ your network username/password then click the System Library Services app

in Search start typing
Providence
and select
**Providence St. Joseph
Health.**

Select your legacy institution and log in with your network username/password. You'll need to include @stjoe.org or @providence.org after your username.

University of Providence non-PSJH students and faculty select OpenAthens.

Digital Commons – Institutional Repository

The screenshot shows the homepage of the Providence St. Joseph Health Digital Commons. At the top left is the Providence St. Joseph Health logo. To its right is the text "Providence St. Joseph Health Digital Commons". Below the logo is a navigation menu with links for "Home", "About", "FAQ", and "My Account". The main content area features a large banner image of a person in a red lab coat holding a magnifying glass over a patient's face, with the text "Orthopedic and Sports Medicine Institute" overlaid. Below the banner is a "Browse Research and Scholarship" section with a "Follow" button and a list of links: "Research unit, institute, or department", "Expert Gallery", and "Nursing – New Knowledge, Innovation, Improvement". A paragraph below these links states: "The repository is a service of the Providence St. Joseph Health System Library Services. Research and scholarly output included here has been selected and deposited by the System Library Services, the individual departments, and institutes." To the right of the main content is a blue sidebar with a "Browse" section containing links for "Collections", "Disciplines", and "Authors". Below that is a "Search" section with a search box, a "Search" button, and a dropdown menu set to "in this repository". Further down are links for "Advanced Search", "Notify me via email or RSS", and an "Author Corner" section with links for "Author FAQ" and "Submit Research". At the bottom of the page, there are two columns: "At a Glance" with "Top 10 Downloads All time" and "Recent Additions 20 most recent additions", and "Paper of the Day" featuring the article "A systematic approach to quantifying infection prevention staffing and coverage needs." by Rebecca Bartles, Angela Dickson, et al.

An institutional repository for collecting published articles, book chapters, posters, presentations, images, videos, data sets, and more. A place for nursing new knowledge!

One convenient place for all of the new knowledge created by PSJH caregivers.

Digital Commons aims to activate the voice of PSJH and share our research accomplishments as a world-class research organization.

- Searchable and organized by Clinical Institute and Discipline/Department
- Links to PubMed record & available full-text
- Include links/downloads to PPT slides, posters, other multimedia

- Ability to follow categories or author
- Results are search engine optimized, so they show up at the top of Google searches.

Research unit, institute, or department

Content posted here has been selected and deposited by the System Library Services, individual departments, or institutes. For more information, see [About the Repository](#).

Selected Works of Elizabeth Schenk, PhD, MHI, RN

Nurse Scientist and Sustainability Coordinator

Elizabeth Schenk is nurse scientist for Providence St. Patrick Hospital, leads nursing Research for Providence St. Joseph Health, a 50-hospital system, and is an Assistant Research Professor at Washington State University.

Dr. Schenk's primary research interest is the environmental impacts of healthcare, which she has been working to reduce for over 25 years. As a nurse, she sees the many tons of waste produced at the bedside, the constant high-intensity use of ener... [read more](#)

[Link](#) **Perspectives on Patient and Family Engagement With Reduction in Harm: The Forgotten Voice.** (Elizabeth C Schenk, Ruth A Bryant, Catherine R Van Son, et al.)
Journal of nursing care quality (2018)

BACKGROUND: Despite continued efforts to improve safety in hospitals, hospital-acquired harm persists. Strategies have been identified to establish patient-centered care and improve

- Researcher/writer-centered portfolio for all publications, presentations, and posters.
- Multimedia.

Looking for information? Where to look?

- **Looking for evidence? Use a database (start with MEDLINE):**
 - PubMed or Ovid MEDLINE – more than 27 million references in medicine, nursing, public and allied health, includes Cochrane
 - Cochrane – home of the systematic reviews (searchable in MEDLINE and CINAHL)
 - CINAHL – 3.8 million references in nursing and allied health
- **Looking for background information?**
 - UpToDate
 - ClinicalKey
 - Textbooks (electronic)
- **Looking for that one perfect article?**
 - PubMed using keywords
 - Library super search box
 - Google Scholar (linked to library holdings)

Tutorials, frequently used e-books and more!

How to look?

- Start with a focused topic
- Develop your PICO/T
- Identify keywords/subject headings you want to search and plan how you are going to connect the terms
- Search each keywords/subject separately
- Use filters and limits to narrow your search

PICO(T) Refresher

P

- Population or problem

I

- Intervention or interest

C

- Comparator

O

- Outcome

(T)

- Time

Search techniques – subject Headings vs Keywords

- Subject Headings:
 - standardized set of terms used to index articles and books, for example
 - MeSH – Medical Subject Headings
- Keywords:
 - words from a title, abstract, etc.

Subject heading vs keywords - pros & cons

Subject Headings

Pros:

- More precise, fewer irrelevant results
- Don't need to think of synonyms

Cons:

- Need to know the exact word or phrase used in the database or catalog you're using. No guessing!
- Only looks for the term in the subject field
- Subject heading may not exist
- Human indexing is imperfect

Keywords

Pros:

- Looks for words in many places in the record
- Don't need to know specialized language/terms
- Larger number of results

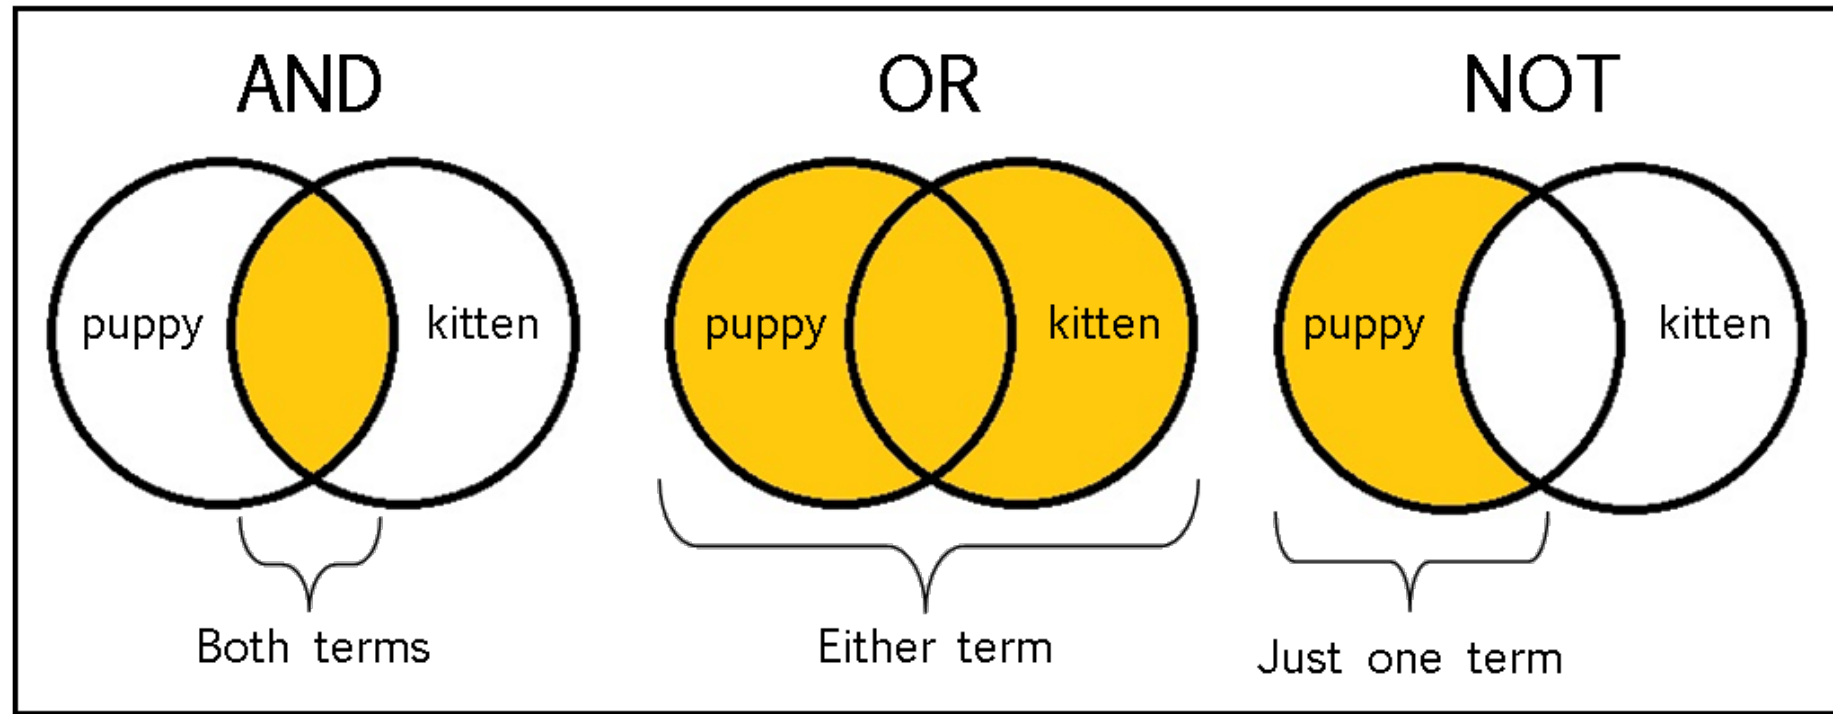

Cons:

- Have to think of all synonyms
- May get too many results; more irrelevant hits
- Can't be sure you've gotten all the results on your topic

Organizing Your Search

- Search each concept separately
- Combine your terms using AND/OR (Boolean operators):
 - **AND** – narrows the search; finds articles that include both terms, e.g. *pressure ulcers AND inpatients*
 - **OR** – broadens the search; finds articles that include each of the terms. **OR** is often used to combine different terms that describe the same concept, e.g. *bedsores OR pressure ulcers OR bed sore OR bed sores OR bed sore OR decubitus*
 - **NOT** – narrows the search; finds articles that exclude one term, but will exclude ALL articles with that word. Use with caution!
- Use limiters and filters (article type – e.g. *Systematic Reviews*, years, language) to narrow down your search.

How it works

<http://www.library.ohiou.edu/2013/11/research-tips-how-i-search-for-information/>

Want to see AND in action? Check out <https://pubvenn.appspot.com/about.html>

Putting it all together

PICOT:

What are the best interventions to prevent pressure ulcers in hospitalized patients?

- Population – inpatients/hospitalized patients
- Intervention – interventions to prevent pressure ulcers
- Comparator – none
- Outcome – prevention of pressure ulcers
- Time – while patient hospitalized

Search using Subject Headings (MeSH)

Subject Headings:

pressure ulcer/prevention and control[Mesh]

AND

Hospitalization[Mesh] **OR** Inpatients[Mesh] **OR** Hospitals[MeSH]

In PubMed you can type it like this:

("Pressure Ulcer/prevention and control"[Mesh]) AND ("Hospitalization"[Mesh]) OR "Inpatients"[Mesh] OR "Hospitals"[Mesh])

Search using Keywords

Keywords:

pressure ulcers **OR** pressure ulcer **OR** bedsores **OR** bedsore **OR** bed sore **OR** bed sores

AND

inpatient **OR** inpatient **OR** hospitalized

AND

prevent **OR** prevention **OR** prophylaxis

In PubMed you can type it like this:

(pressure ulcers **OR** pressure ulcer **OR** bedsores **OR** bedsore **OR** bed sore **OR** bed sores) **AND** (inpatient **OR** inpatient **OR** hospitalized) **AND** (prevent **OR** prevention **OR** prophylaxis)

Focus it

Narrow down your search by:

- Language,
- Publication years,
- Article type – e.g. randomized controlled trial, systematic review, meta-analysis
- Population age – child, infant, adult, aged, etc.
